ABOUT THE MARSHALL LEGACY INSTITUTE (MLI)

For many nations, a primary obstacle to achieving sustainable progress and stability is the deadly legacy of landmines, the relics of armed conflicts that often ended long ago. Landmines halt agricultural production, impede economic growth, slow the return of refugees, instill fear, and kill and maim innocent citizens on a daily basis, injuring or killing at least one person every 40 minutes.

MLI's Mine Action programs provide landmine-affected countries resources & training they need to rid their soil of this horrific scourge and address their long-term impacts. Our Social Impact programs address many of the myriad other humanitarian issues facing countries recovering from war, such as poor economic opportunities for vulnerable women, lingering tensions between ethnic and religious groups, and a lack of educational and leadership development opportunities for youth.

At our annual *Clearing the Path* Gala, more than 300 leaders of business, industry, and government gather to honor exceptional individuals who have made extraordinary efforts to help others in war-torn countries. MLI's 22nd Anniversary Gala and Awards Dinner will feature the impact our work has made in countries like Afghanistan, Angola, Armenia, Azerbaijan, Bosnia Herzegovina, Colombia, Iraq, Iraqi Kurdistan, Lebanon, Nicaragua, Sri Lanka, Thailand, Vietnam, and Yemen. Your sponsorship support for this event will enable us to help more people play, work, and walk the earth in safety.
